PROJECT

Real-Time Public Transport Tracking | Oct 2024

- Designed a lightweight web and mobile UI for real-time bus tracking in small cities.
- Focused on low-bandwidth accessibility and user-friendly interface design.
- Supported data preparation and workflow planning for transportation tracking.

EXPERIENCE AND ACHIEVEMENTS

Team Member - Hackathon Project: Real-Time Public Transport Tracking for Small Cities | Nov 2024

- Collaborated in a 5-member team to develop a public transport tracking solution for small cities.
- Collected, organized, and prepared transportation data for project analysis.
- Supported data-driven decision making by structuring collected information for further analysis.

Java Bootcamp (DAIT) | Feb 2025

- Completed a 15-day intensive training program in Java, OOP, and DSA.
- Practiced hands-on coding, logical reasoning, and analytical problem-solving exercises.
- Strengthened understanding of algorithmic thinking and structured programming concepts.
